

ACKNOWLEDGEMENT

The urban planning is not only a physical planning exercise but it has a multidisciplinary approach. This requires multi-faceted data from various departments, institutions, and organizations. The planning is for people and integrating urban and rural masses in development process is the basic requirement to develop the concepts in preparing the development plan. I am highly indebted to the citizens of Surat.

This plan could take shape because of very dynamic and constructive approach of Dr. Rajender Kumar, I.A.S. who was then the Collector, Surat and Chief Executive Authority of SUDA. I am highly indebted to him for his constant interaction, help and advice in formulating the vision for this plan and giving it the shape in the form of proposed land-use plan. I always remain thankful to him.

The regular communication with the Chairman, SUDA Mr. M. Thennarasan, I.A.S. was very helpful in framing the opinion for the suggestions / objections received on the proposal of Draft Development Plan – 2035 and GDCR which was published under section 13 of the Act. He always spared time for this purpose from his busy schedule as Municipal Commissioner. I am overwhelmed for his kind gesture.

I am also thankful to Mr. Milind Torwane, I.A.S, former Chairman of SUDA, for extending the help, guidance and critics at appropriate time during the preparation and publication of Draft Development Plan.

I am grateful to Mr. Prakash Dutta, Senior Town Planner of SUDA for his contribution in formulating vision and dedication towards the entrusted work of preparation of Development Plan -2035 within the statutory time limit. During the last few days, he has worked day and night effortlessly with his team. Constant interaction with him has made this plan people friendly within the statutory framework.

I cannot forget Mr. M. K. Das, I.A.S; our former Chairman and Ms. P. Bharthi, I.A.S; former C.E.A., SUDA for initiating in 2013 the preparation of Development Plan – 2035 which has now taken shape and is being sent to State Government for sanction.

I, also, express my gratitude to the Members of Parliament, Members of Legislative Assembly, Village Sarpanchs, Gram Panchayats and all the concerned departments for imparting their valuable guidance and for their support in this effort.

I am grateful to the team of Surat Municipal Corporation led by the Mayor, Standing Committee Chairman and Municipal Commissioner for their contribution.

I would like to thank GPCB, Forest and Environment Department, Irrigation Department, R & B Department, DGVCL, Sachin Nagarpalika, GIDC, GIDB, Commissionerate of Police, Collectorate of Surat, Dedicated Freight Corridor Corporation, GWSSB, South Gujarat Chamber of Commerce and Industry, Institute of Civil Engineers and Architects, Non Governmental Organizations for supplying the relevant data, maps, reports etc. and for their active participation.

The sharing of ideas on published GDCR with office bearers and representatives of CREDAI, Surat and ICEA, Surat was very fruitful in framing opinion on the suggestions received. I am highly obliged.

I am grateful to the Institutions like SVNIT, SCET that have provided us with all the support in terms of data analysis and proposals.

Consistent hard work of planning team members needs special attention. They worked hard to bring this report within the statutory time limit as per the requirement of Act and Rules.

Last but not the least there are always men behind the curtain who act as a major role in whole process but their existence is hardly noticed. In the preparation of this Draft Development Plan, there are many such actors whom we are indebted for their silent help. I have deep regards for these anonymous persons.

(J.B. Patel, IAS)
Chief Executive Authority
Surat Urban Development Authority
